Off to the Plaza Dedication Tobin Warns That War Effort Interference Must Be Halted

General President, Speaking at Chicago's Victory Plaza Dadication, Urges Congress to Adjourn; Hits Isolationist Press

CHICAGO, Ill .- A solemn warning that the American public will not tolerate additional interference with the war effort by the United Mine Workers, Congress and the isolationist press, was issued here by Daniel J. Tobin, general president of the International Brotherhood of Teamsters.

Speaking at the dedication of Chicago's new Victory Plaza, which was donated to the city by the Chicago Joint Teamsters' Council No. 25 as a tribute to 7,500 members of the council who are serving in the armed forces, Mr. Tobin said he was satisfied that the members of the United Mine Workers will not cease work again for the duration of the war

Crucial Months Are Ahead

of America and of free labor.

Momentous decisions will be reached on the battlefields, in Hammond. Congress and among the membership of labor unions.

One thing is certain-every true American must do everything in his power to make the next few months count heavily in favor of the allied nations.

we possibly can, or if we do not give our complete support to all activities important to the war effort.

Enemies of organized labor are certain to seize upon every opportunity during the crucial months ahead to take advantage which she came from they had to though it may seem to the outsider compared to the quick arof labor; to endeavor to slow up labor's contribution to the war shoot six men to start a graveeffort by promoting restrictive legislation and by inspiring yard, the says.

Members of the Teamsters' union must stick to their no-strike guns. Some of the members may think that they have good rea- cal No. 520, made many new friends months what the aggressor nations took years to accomplish! sons for wanting to strike, but these reasons must be east by during his short term in office and the wayside until the war is won. After all, if we lose this war, we all hate to see him leave us. most of us won't be allowed to live long enough to stage a strike.

As to restrictive legislation, labor must do everything it can to see that it is defeated. One of the best ways for labor to invite restrictions is to fail to co-operate fully with the war program.

"he Teamsters' union is justly proud of its record so far in this war. Let's keep up the good work.

BOATS SAIL HIGHWAYS

One of the oddest long distance highway transportation jobs involves the transportation of boats from coast to coast over the longest regular route in the country from Jacksonville, Florida, to San Francisco, California, a distance of 2,750 miles. Several 55-foot tugs already have been hauled by motor vehicle from Jacksonville to the west coast for service in the Pa-

The Workings of Democracy

Under the strain and stress of the moment, when events of LOCAL NO. 520 MEETS AT 3:00 world-shaking import are taking place with every tick of the P. M. ON THE SECOND AND clock, impatient souls are grumbling at the slow workings of MONTH AT 4616 INDIANAPOLIS democracy. They say it cannot function properly and are all for BOULEVARD, EAST CHICAGO, taking it apart and putting it together again according to some plan of their own. They speak of democracy as though it were but the blueprint of some intricate machine which, with clocklike precision, should turn out articles alike to the shading of a

But democracy is not a blueprint or a machine-not even a machine in the political sense. Democracy is a way of life which stems from the individual. It is the method by which he learns to live amicably with his neighbor. It is the formula which civilized and free people have found most useful in working out the great problem of human relations.

Democracy is the way of revolution by evolution. It is the only way to overcome the slavery of want, the slavery of ignorance, the slavery of discrimination-whether it be of class, creed or color. In it lies the solution to all of our problems, for democsunk because you think tomorrow's racy depends upon the will of the people-which is but the will in the dump. Just grab that gun and the courage of many individuals banded together.

Democracy is the way of action. It is not static. Its growth is slow but never ceasing. It is not based upon tradition alone. I believe Elsie Robinson was Democracy is the way to do the things that must be done. It must always move ahead. Democracy is the traffic rule of life. It adapts itself to the exigencies of the road. Its green and red lights are spaced on the traffic changes of the time

Democracy is the way of justice. Racial or religious discrimination, class hatreds, group pressure are all breaches of democ-The next few months will have much to say about the future tion into the United States Marine racy, are flaws in the road that must and will be corrected in Corps when he either felt or was the course of time. The way may be long and hard, but the knocked from his motorcycle in democratic way will prevail in the end!

Democracy being a way and not an arbitrary law has flawsmany of them. But those mistakes are man-made and can be corrected by the will of the majority. What rights the majority have can be retained by them only if they allow the same rights to the minority. Because the majority wants free speech, they must We can't do this if we fail to buy all of the War Bonds that are wishing you a speedy recovery. allow it to the minority. The right of argument is open to the minority and majority alike.

> Democracy, like Christianity, is a way that must be followed to be proved. We know that it works in a crisis, unwieldy bitrary actions of the dictators. But, though we were unarmed, unmanued, and unprepared for war, yet when it came, our men. in arms, our men and women in the production lines and on the home front showed the world that a democracy could do in

> Democracy works in war. Democracy will also work in peace if we as individuals follow its way and help it work!

No Hope Seen for Bricker

Maybe Senator Taft thinks that Americans have lost their senses and will elect as President a glorified question mark like Governor Bricker in a time of world crisis, when all humanity flounders and gasps for a leader.

But we don't, We think that Bricker will still be side-stepping on the streets of Columbus when next inauguration day rolls around .- The Ohio Teamster.

Subs Might Provide Fuel

Another possibility exists for the Germans. That is the Nazi use of seaplane bombers which could refuel from German submarines spaced at appropriate points in the Atlantic. Again we must reckon that the raiders might approach within a couple of hundred miles of our shore without detection.

And finally, because of the short-age of carriers and the consistent superiority of the allied navies, the Germans have developed the use of catapult planes to a more considerable extent that has any other naval power. We know that since of 1938 the Germans have been successfully launching two-engined bombers from cruisers and battleships. Taking advantage of weather, the Nazis might conceivably approach our eastern shores with a speedy task force and carry out a limited raid with planes of the catapult type.

Any one of these methods, or

No Advertising!

You will notice that no advertising appears in these columns. That is no accident. ans Teamster does not accept advertising of any description. We believe that it is the duty of a Labor newspaper to print the news and views of Organized Labor, and not those of the advertisers. Paid advertising usually hampers the editorial freedom of a newspaper. It has long been a policy of the International Brotherhood of Teamsters to avoid advertising in its official publications. We subscribe to that policy. We represent the indiana Teamsters, and none else!

EMPLOYERS SWING

(Continued from page 1) Brother Clyde B. Birdsong is president of Local No. 215.

Called Outstanding Example

Brother Dexter L. Lewis, director of the Council, described the victory as "an outstanding example of what can be accomplished without strikes when the co-ordinated efforts of all Teamsters' unions in a specified area are used on an employer.'

A campaign to get the companies to abide by the agreement and to pay back wages. due the employes was an unthe necessity of adhering to the "no strike" pledge for the

"Much credit must be given the employes of the companies who waited patiently and suffered until their employers could be made to see the light," Brother Williams said.

FROM 364

By GEORGE B. CAMPBELL

President Walter E. Biggs spent three days in Chicago last week attending the Central States meeting. and, as announced in this month's International Teamster and Indiana Teamster, much good was accomplished along the line of straightening out some of the bad boys in the freight business.

Representative Oibson of the freight division, says he is working a swing shift these days and nights in trying to keep up with the movements of the drivers in his division.

Representative Hansen reports that new contracts have been negotiated with the bread companies, with a wage increase, subject to the approval of the War Labor Board, being provided.

Representative Snyder hasn't come up with any potatoes, and our horse meat market still is in business. How about an exchange, Buck?

I wonder if, despite all the high water, Birdsong still calls it the garden spot of America.

Summer must be here. The girls When the Foster Freight Lines in our office have taken the fans refused to comply with an agreement to pay \$7.20 to their drivers ming them wide open.
